INVESTMENT PROPERTY : Shopping Malls

At present, Summarecon owns and operates 3 shopping malls with total GFA of more than 300,000 m², generating significant recurring revenues from the lease of retail malls.

The 3 malls are located in Summarecon's townships and are market leaders in the Greater Jakarta region.

Summarecon Mall Kelapa Gading

Summarecon Mall Serpong

Summarecon Bekasi

These are middle-class shopping malls with the concept of "Your family Mall" offering an extensive variety of merchandise from fashion to home and household products, and from multi-cultural cuisine to entertainment for the family. Furthermore, the "Downtown Walk" offers a wide variety of dining and live entertainment in a casual outdoor setting.

In 2020 and 2021, the mall operations were materially affected under Covid-19 regulations wherein tenant operations were curtailed and visitor footfall was limited to 25% - 50% of a mall's capacity. Contractually, there were no changes to the Base Rent but rent discounts ranging from 20-50% were given to qualifying tenants. Service Charge, commensurate with operating hours, were still levied in full except when there was a total lock-down of the premises. Consequently, contribution to Group Revenues declined from 27% to 16%.

Improved profitability contributed to the better performance of property development. Most of the revenues are derived from marketing sales that were acquired from previous years; normally 24 months (for landed properties) and up to 48 months (for apartments) as revenues are recognised in the financial statements only upon completion of the projects.

Outlook for the Year

- ☑ **The pandemic is the biggest uncertainty on the horizon, reinforced by the surfacing of the Omicron variant, for instance, and the likelihood of more variants. Whilst the endgame of the pandemic is very uncertain, we assume that the world is entering a stage where the pandemic is likely to become endemic.**
- ☑ **Inflation in 2022 is projected to be a bit higher than 2021's est. of 3.6%, partly due to the increase in VAT rates. This may have an impact on the purchasing power of consumers.**
- ☑ **Prospective increase in IDR interest rate as consequence of increase in USD interest rates, thus potentially increasing the bank mortgage rates.**
 - ▣ **However with our focus on the middle-up property segment, we believe the impact of higher inflation and higher interest rates on the Company's revenues may be muted.**
- ☑ **Sustained global demand for commodities and raw materials, and the stability of prices will continue to boost the economy in 2022**

- ☑ **Develop existing land reserves and acquire strategic land plots**
